FORUM

About Forum

Any activity in students' life enhances them to develop the inbuilt skills the department of computer Science since the inception has tried to mould students both with curricular and extracurricular activities. The forum falcon is a banner under which the activities of students are held. Every academic year a calendar of events will be planned to be executed in both odd and even semesters.

A designated faculty plays a role of coordinator who will be a backbone for the activities conducted Different types of activities involve technical and non-technical activities. Some of the non-technical activities like cooking without fire, pick and act, debate are exclusively planned to pull out the inhibitions Of students and also to generate the team spirit in them. Technical round such as explore c , aptitude test, technical test, group discussions are mainly useful for student taking up their interview in the final year.
