1. FACILITY

Training and Placement Department has the following Facilities:

1. Placement Department has an excellent infrastructure with 5 Interview Panels, 1 waiting hall and 3 GD hall makes our college a best choice for recruitment drives.
2. Large Multi Purpose Auditorium to accommodate 550+ students for conducting Pre-Placement talk and for other placement activities.
3. 600 latest Computers connected with 300 Mbps internet connectivity for the conduction of online test.
4. 24/7 uninterrupted Power supply, Guest house and Library Facility.

2. MANAGEMENT

To meet the rapid changes in technology GMIT college conducts Value Added Courses which the students learn beyond their syllabus , for the students from I year onwards. The other unique feature of the training program is the need analysis done among the students and based on their need they are exposed to various training programs. The effectiveness of the training program is analyzed by the feedback collected from each and every student.

The Training Details are as follows:

I year students – Awareness on the skills needed to become a professional, yoga, meditation and Practices, Classes to develop self confidence, Communication English, Extempore speech and command on language.

II year students –Healthier life style and practices, awareness on campus recruitment, Learning about management through games, Preparation for Aptitude test, resume preparation, Skills to operate and use instruments, loading the software, Minor problems of computer, Printer and connections .

III year students –Knowledge of interview skills, Social behavior, Knowledge of behavioral science, Group discussion, Task handling and importance of leadership skills, Technical question answering techniques, Preparing for higher level aptitude tests, Self evaluation.

IV year students –IITB programs on value added courses. Interacting with GTTC, R&D Centers, Practical visits to industries, Stations, Value added commercial services centers like international airports. Exposure to governmental job opportunities in various departments. Strengthening the alumni association and inviting the different types of companies and their HR Persons. Symposium and seminar skills

3. EFFECTIVENESS FOR CAREER GUIDANCE INCLUDING COUNSELING FOR HIGHER STUDIES.

Training and Placement Department of GMIT College provide guidance and all the assistance for the students in order to achieve their career goals. The unit takes right steps in identifying the demands of the current industry and prepares our students towards this need. Adequate emphasis is given for soft skill development complementing the regular academic programmes. Aptitude tests and group discussions are conducted at regular intervals to enable the students to improve their performance in competitive exams. The Placement Officer, faculty Coordinators and student representatives from all the departments heads this unit. Job oriented courses and special training programmes are regularly conducted. GMIT also welcomes guest lectures, visiting faculty members for training students and faculty members too.

5. INDUSTRY INTERACTION FOR TRAINING/INTERNSHIP/PLACEMENT,ETC

Institute Industry Interaction encourages its faculty, and students to interact with industry in all possible ways with the spirit of deriving mutual benefit. Communication between the institute and the industry is seen as the platform for best practices, latest technological advancements and their implementation and impact on the Industry. It is basically considered to improve the quality of technical and vocational education adequately to meet the needs of the industry and economy. To integrate industrial training and other inputs from the industry with the teaching-learning processes, interaction is necessary as it develops students' awareness on job functions in the industry, attitudes to adapt to industrial environment, proper practical and relevant knowledge, skills and competencies in preparation to becoming self employed. Better interaction between Technical institutions and industry is the need of the hour. This will have great bearing on the Curriculum, exposure of industrial atmosphere to students and subsequent placement of youngsters in industries across the country. With the advent of globalization and opening up of Indian economy to outside world, competition among industries has become stiff. There is an urgent need to prepare engineering students for jobs in multinational companies, by exposing them to newer methodologies. These objectives can only be achieved well by bridging the gap between Industry and the academic Institute.

6. COUNSELING FOR HIGHER STUDIES

Career counseling helps students discover their true potential and interest in various subjects in order to help them choose the right career. Career counseling is the assistance provided to a student to achieve goals. The advice and counseling provided is based on - personality, ability and curiosity. The counselor is trained in administering tests that determine the aptitude and skills of a student, personality traits and subjects of interest. There is a face-to-face interview with a career guidance counselor. The interview provides the student with the opportunity to clear any doubts or queries student may have regarding career options and educational courses. It also allows the counselor to further judge the aptitude of the student, thus building on the preliminary results of the written tests.

7. PRE-PLACEMENT TRAINING

Pre - placement training is given based on their core subject which is followed by aptitude training. The aptitude training is also given to the students for two days before every interview schedule for them. Further, they undergo employability and placement training to make them assertive to corporate. In the present scenario it is mandatory that students have to exhibit their technical talent along with the communication skills business etiquette, team work and leadership style. Hence the students undergo personality development training from the 1st semester onwards. The personality training has been conducted with the association of eminent corporate persons. Apart from this, our college provides an opportunity to the faculties to upgrade their teaching skills with the present scenario through faculty development programme in the regular interval with the institutional association of Wipro Mission 10X and Infosys campus connect training programme.

8. PLACEMENT PROCESS AND SUPPORT

The placement department with the objective of 100% opportunity for the students in the interview starts their placement activity in the July every year. The placement office liaises with the industry and corporate offices which conducts their recruitment activity with the colleges. A good number of reputed companies have conducted campus recruitment in our college and many more have expressed their desire to come for assessment of the college as per their norms.

1. The corporate offices are requested to provide us with their requirement, job description and their norms.
2. The job descriptions are put in the notice board of the placement office.
3. The placement cell also has the database of the eligible students.
4. The students who are really passionate for the job profile are expected to register their name in the placement cell.
5. Based on the number and interest of the corporate the placement activity venues are finalized.
6. As and when the corporate request us for campus drive pool along with the various colleges the management with open heart generously share the infrastructure facilities with the corporate.
7. The college also provides facilities to conduct the online test, group discussion and interview inside the colleges.
8. The selected students may or may not be allowed to sit in further job interviews as per the placement policy of the Institute.
9. Each student is allowed to attend the interview till receiving the letter of intent from one corporate.
10. This is strictly followed in the college to pave way to all the students are exhibited to the placement opportunity. This ensures that the student to join in one company.
